Dear Brother:--

I have just a moment before the mail goes, and so will just inclose copies of letters regarding my book difficulty at the present time. I just as soon mother be not bothered with it. She has all the care and difficulty she can well carry. But I wanted you to know how matters stand. I stand appalled at the blindness of people in charge of our work.

Now I going to say something to you in confidence. If you get W. C. Sisley to Australia you will rue it forever. I shall be frank and say I have no confidence whatever in his methods. No lesson seems to come strong enough for him to learn anything from it. But I will stop where I am.

In great haste,

J. E. White
