Dear Sir,

I have attached here to a photo copy of a statement reported to have been made by Sister E.G. White in 1908. Could you please advise whether it is fact or fiction?

If it is fiction, any documents that would support this point of view would be appreciated. If it is fact, any material that would support that point of view would be appreciated. If one needs to take a neutral attitude on it, well please say so. Without supporting documentation there are many different points of view that could be taken and this statement used to support them. But it is not sufficiently clear as to its context and era that it is aimed at, if it is fact, to use it to support any point of view that one would want to uphold would not be wise.

Any help you can offer would be appreciated.

Yours in Christ's Service
